

ekgaon internship programme

Rediscovering Self

ekgaon Internship Programme (EIP) provides opportunity to young and dynamic to identify their potential for bringing change. The programme aims at identifying young professionals who seek learning opportunity to create innovative technology and management solutions for the developing world.

Organisation

ekgaon is a leading Information and Communication Technology (ICT) and management services company working towards providing technology, systems solutions and management support for knowledge management, strategic decision making and business development. In line with its mission **ekgaon** has been working over several years across South Asia with development stakeholders and partnering on projects for enabling development process and building communication and information systems for increasing efficiency of business enterprises and value chain process, enabling information flow and delivering financial services, technology solutions and strategic consulting. **ekgaon** head office is based in New Delhi India and regional offices in South (Madurai, Tamil Nadu) and East (Kolkata, West Bengal) India. **ekgaon** is dedicated to provide appropriate and affordable solutions for developing communities and business.

ekgaon in partnership with Community Enterprise Forum International (CEFI) has formed a consortium viz. Community Enterprise Consortium (CEC) for enabling support for rural enterprises to build economies of scale by efficiently using ICTs and building management systems centered around primary producer communities. Currently, CEC is engaged in building capacities of primary producers across the region. CEC has taken up development of capacities and enabling supply chains and producers owned enterprises in identified sectors such as medicinal, aromatic & dye plants, microfinance, ICT enabled services, fisheries, community based tourism & green energy. For details see our website www.ekgaon.com.
